Program Details

The NSW Government is committed to achieving net zero emissions by 2050 and this will require industry to decarbonise. The [Net Zero Plan Stage 1: 2020-2030](#) (the Net Zero Plan) will fast-track emissions reductions over the next decade to combat climate change, grow the economy, create jobs and attract investment.

The Net Zero Manufacturing Initiative (the Initiative) has allocated up to \$25 million in this round of the Clean Technology Innovation (CTI) Grant for piloting and demonstrating lab-proven clean technologies to accelerate their commercial readiness. This aims to support projects and activities that help advance clean technology readiness levels (TRL) from 6 and beyond. As this can include design and construct elements for the technology itself or enabling infrastructure required to test the technology.

The CTI program is a key initiative which will unlock the next wave of low emission technologies needed for NSW to reach net zero emissions by 2050. CTI is designed to foster innovation throughout the entire journey of product development. This spans from research and piloting to infrastructure development, commercialisation and deployment.

For more information refer to the funding guidelines and supplementary guidance on our [website](#).

If you are still unsure if this is the right stream for your project, please refer to the eligibility checker on our [website](#).

Material means the Site and all of the information and material (including all data, documents, pages, images, text, graphics, logos, audio and software) made available on the Site.

Group Representatives means employees, agents and officers of the Group.

Site or **OneGMS** means the NSW Government Grant Management System administered by the Group, which is accessible and available at <https://manage.smartygrants.com.au>, as amended from time to time.

User, You or Your means the person using or accessing the Site and includes an individual, partnership, or any body or person whether incorporated or not.

Overview

The Site is owned and administered by the State of New South Wales acting through the Energy Climate Change and Sustainability Group within the NSW Department of Climate Change, Energy, the Environment and Water.

The Site enables the User to submit and manage applications for NSW Government ECCS grants. The Group uses the Site to collect and store information in relation to the administration of grants. The Site is built using the SmartyGrants platform.

By accessing or using the Site, You agree to be bound by these terms and conditions and any applicable instructions, processes, procedures and recommendations as advised on the Site.

Use of the Site

In accessing or using the Site, You agree:

- not to register with the Site or sign up to receive information for anyone other than yourself and, if You are registering on behalf of an organisation, as an authorised representative of the organisation;
- not to impersonate any person or entity or falsely misrepresent yourself;
- not to abuse, harm, interfere with, or disrupt the Site - for example, by accessing or using it in fraudulent or deceptive ways, introducing malware, or spamming, hacking, or bypassing the Site's systems or protective measures; and
- not to export, extract or otherwise scrape Material from the Site.

Use of Information

Information provided by You in an Application, including information regarding any auspice, partner organisations or consortium ("partners") will be collected and utilised by the Group and Group Representatives to:

- determine the Applicant's eligibility for funding and the merit of the Applicant's Application;

CTI3 - Grant Application

- consider the Applicant's suitability to receive funding by conducting fraud, corruption, and risk prevention checks;
- provide the relevant grant and any related services to the Applicant following a successful Application;
- contact the Applicant or the Applicant's nominated representatives in relation to other relevant programs or opportunities from the NSW Government (unless the Applicant opts out at any time);
- record the Applicant's submitted information into a stakeholder relationship management system that facilitates data analysis and the derivation of insights;
- administer any incidental functions of the Group; and
- comply with any statutory obligations.

Information provided may be disclosed to parties external to the Group including, but not limited to:

- the Group's subcontractors and consultants;
- members of the Technical Review Panel and/or Assessment Panel;
- the Net Zero Emissions and Clean Economy Board;
- the Minister or Minister's Office;
- the NSW Department Climate Change, Energy, the Environment and Water;
- the NSW Ombudsman and Audit Office of NSW;
- the NSW Department of Premier and Cabinet;
- the NSW Department of Customer Service;
- other NSW Government agencies for the purpose of considering the User's suitability; and
- external advisors including probity, technical, financial, or legal advisors any agency or body of the NSW Government, or any other organisation or individual considered by the Group to have a need or an entitlement to know that information (including any federal, state or territory agency or body), where that need or entitlement to know that information or required by law to be disclosed, to those parties.

The Group will use reasonable endeavours to ensure that any information received in or in respect of the Applicant's Application which is clearly marked 'Commercial-in-confidence' or 'Confidential' is treated as confidential however, such documents will remain subject to the *Government Information (Public Access) Act 2009* (NSW) (GIPA Act); and in some circumstances the Group may release information contained in an Application and other relevant information in relation to the Application in response to a request lodged under the GIPA Act or otherwise as required or permitted by law.

Publication of information If an Application is successful, the relevant details of the grant will be made public, including details such as the names of the grant recipients and any partnering organisation (state government agency or non-government organisation), project title, project description, location, anticipated time for completion and amount awarded. The Group may also publish aggregated and non-identifiable data from the Applications received. **Retention of information** We will retain the information provided for a period that is appropriate for the purpose for which it was provided. The information will be archived and disposed of in accordance with the Group's policies and legislative requirements of the *State Records Act 1998* (NSW).

Outcomes

Our metrics

A metric is a measurement designed to indicate whether or not progress towards an outcome is occurring, and quantify the extent to which it is occurring. Here we would like you tell us which of our quantitative metrics you may be able to report on.

- For this reporting, assume the technology is successfully commercialised, deployed and operational for a period of 5 years.
- Please outline the methodology you have used to calculate this number.
- You have the option to report emissions related to your technology either within NSW or on a global scale.
- Please indicate in the explanatory notes whether the emissions pertain to NSW or are on a global scale.
- If one of the below metrics do not apply to your project, please input N/A.

Program Outcomes	Metric	Target	Collection method	Explanatory notes
	Which of our metrics (if any) will you track? You may be required to report on your progress. Add more rows if you want to list additional metrics.	Identify a target for the metric you have chosen - an estimated total for your project. Must be a number.	How will you collect and verify the data? E.g. survey, interviews/ case studies, focus groups, administrative data (e.g. case management data), observation/ estimation, government or public dataset (e.g. Census), other datasets.	Add notes if you need to provide more context.
