

National Energy Bill Relief for Small Business 2024-25

Form Preview

National Energy Bill Relief - Small Business Payment Application Form

Introduction

The 2024-25 National Energy Bill Relief program helps NSW small businesses pay their electricity bills. The program is delivered by the NSW Government on behalf of the Australian Government. NSW small businesses that use less than 100 megawatt hours of electricity per year may be eligible for a National Energy Bill Relief payment of up to \$325 in financial year 2024-25. The application process is different depending on whether your small business is a retail (on-market) or an embedded network (on-supply) electricity customer.

This application form is for small businesses that are located in and receive electricity bills from **an embedded electricity network** (on-supply).

If you are a Retail (on-market) customer and receive your electricity bill from an energy retailer, you will automatically receive the National Energy Bill Relief payment on your electricity bill.

If you have already received the National Energy Bill Relief payment, you do not need to apply using this form. If you're not sure, contact the electricity retailer on your electricity bill before applying.

Please ensure you have all copies of the required supporting documents as listed in the eligibility criteria ready for this application.

Eligibility Checker

* indicates a required field

Do you own or operate a small business in NSW, and are you listed as an authorised person of the business in accordance with the Corporations Act 2001?

*

- Yes
- No

Does your small business have an active Australian Business Number (ABN)? *

- Yes
- No

Has your small business already received the National Energy Bill Relief Small Business Payment in Financial Year 2024-25? *

- Yes
- No

Only one bill relief payment can be provided per small business. It is a criminal offence to provide false or misleading information.

Form Preview

Are your NSW business site(s) located in an embedded electricity network? *

- Yes
- No

Embedded electricity network customers get an electricity bill or invoice from, or on behalf of, the owners or management company where your business is located.

Is your small business named on the electricity bill?

- Yes
- No

Is your small business electricity bill on a business tariff? *

- Yes
- No

A tariff type might appear on your bill under usage and supply charges. This is the rate you pay to use electricity at specific times.

Does your small business use less than 100 megawatt hours (MWh) of electricity per year across all business sites in NSW? *

- Yes
- No

You can calculate your usage by adding up the total electricity consumption over the last year for your business sites related to your ABN.

Does your small business electricity bill include metered electricity usage? *

- Yes
- No

Please ensure your bill is based on an actual meter reading, rather than an estimated meter reading.

You have chosen a response which means you are ineligible to apply for this payment.
